Abstract of CN 1324646 (A)

The present invention relates to a tea preparation for curing chronic laryngopharyngitis and its preparation process includes the following steps: pulverizing 3 Chinese medicinal materials of isatis root, scrophularia root and licorice into fine powder, seiving for stand-by, then decocting five Chinese medicinal materials of platycodon root, bushy sophora root, mume fruit and others for three times, combining decocta, filtering, adding rock candy, concentrating into melicera material, mixing it with starch, boiling into paste-like material, then mixing the paste-like material with said fine powder and making them into soft block, sieving to obtain granules, drying and filling for stand-by.
